

Sound Level Meter

User Manual

1. Safety Information

Read the following safety information carefully before attempting to operate or service the meter, and pls use the meter as specified in this manual

• Environmental conditions

1. Altitude below 2000 meters
2. Relatively humidity 90% max.
3. Operation Ambient 0~40°C

• Maintenance & Clearing

1. Repairs or servicing not covered in this manual should only be performed by qualified personnel.
2. Periodically wipe the case with a dry cloth. Do not use abrasives or solvents on this instruments.

2. General Description

This Sound Level Meter has been designed to meet the measurement requirements of Noise engineering, sound quality control, Health, Industrial safety offices in various environments. Such as factory, school, office and traffic lines.

- MAX/MIN measurement
- Over range indicate
- Low range indicate
- A& C weighting selection
- Bluetooth communication

3. Meter Description

- 1-LCD Display
- 2-Body of Meter
- 3-Microphone
- 4-HOLD/ button
- 5-MAX/MIN button
- 6-Power on/off button
- 7-UNITS button
- 8-Bluetooth button

4. Button Description

Power on/off button:

Meter power on: Short press to turn power off; Long press to activate or deactivate auto power off.

- Press MAX/MIN button for the third time, the current reading will display on the LCD.

Bluetooth communication

Long press Bluetooth button to activate Bluetoothfunction, it communicates after connect with the software. The instrument can transmit measured datas and instrument status to software and the software can control the instrument.

The instrument will automatically turn off in order to lengthen the battery working life.When symbol  appears on the LCD, pls replace the old battery with new ones.

- Open the battery compartment with a suitable screwdriver.
- Replace 9V battery.
- Mount the battery compartment again.

6. Specifications

Frequency range:	31.5HZ~8KHZ
Accuracy:	3dB(under reference condition of 94dB, 1kHz)
Range:	35 ~ 130dB
Measuring range:	LO : 35dB~80dB Med: 50dB~100dB Hi: 80dB~130dB Auto: 35dB~130dB
Frequency weighting:	A and C

Microphone:	1/2 inch electret condenser microphone
Digital display:	4 digits LCD display with a resolution: 0.1dB
Display Update:	2 times/ sec
Auto power off:	Meter automatically shuts down after approx. 10 minutes of inactivity.
Power supply:	One 9V battery
Low battery indication:	The low battery signal “  ” flash when battery voltage drops below 7.2V; The backlight and low battery signal “  ” flash twice when battery voltage drops below 6.5V, then auto power off.
Operation temperature and humidity:	0°C~40°C, 10%RH~90%RH
Storage temperature and temperature:	-10°C~+60°C, 10%RH~75%RH
Dimensions:	185mmx54mmx36mm

7. NOTICE

- Do not store or operate the instrument at hightemperature and high humidity environment.
- When not in use for long time,please take out the battery to avoid battery liquid leakage and cau on the instrument.
- When using the instrument outdoors,pls mount thewindscreen on microphone in order to not pick up undesirale signals.
Keep microphone dry and avoid severe vibration.
