Routes of Exposure

If in Eyes	Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice.
If on Skin	Remove contaminated clothing and wash before reuse. Wash with plenty of soap and water. If skin irritation occurs, get medical advice/attention.
If Swallowed	Wash out mouth thoroughly with water. Never give anything to the mouth of an unconscious person. If vomiting occurs, place victim face downwards, with the head turned to the side and lower than the hips to prevent vomit entering the lungs. Seek medical attention if needed.
If Inhaled	Remove person to fresh air. Remove contaminated clothing and loosen remaining clothing. Allow person to assume most comfortable position and keep warm. Keep at rest until fully recovered. Apply artificial respiration if not breathing. Get medical advice if breathing becomes difficult.

Most important symptoms and effects, both acute and delayed.

Section 5 - Fire Fighting Measures

Hazard Type	Non Flammable
Hazards from Decomposition Products	Ammonia and / or phosphorous oxides can be evolved at very high temperatures. Exposure to fire may cause containers to rupture / explode.
Suitable Extinguishing Media	Product is an extinguishing agent, use appropriate fire extinguisher for surrounding environment.
Precautions for Firefighters and Special Protective Clothing	Fire fighters should wear self-contained breathing apparatus (SCBA) and full protective clothing to prevent exposure to vapours, fumes or products of combustion. Avoid eye and skin contact. In case of fire the product may be violently or explosively reactive. If safe to do so, remove containers from path of fire. Keep containers and fire-exposed surfaces cool with water spray. This product should be prevented from entering drains and watercourses.
HAZCHEM CODE	None Allocated

Section 6 - Accidental Release Measures

Avoid contact with eyes and skin. Wear PPE as detailed in Section 8. Evacuate all unnecessary personnel.

If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

If possible contain the spill. Sweep or vacuum up contents and place in sealed labelled container for disposal. Dispose of waste according to the applicable local and national regulations.

Section 7 - Handling and Storage

Precautions for Handling

- Read label before use.
